FIRST AID:

If in eyes: Immediately flush eyes with plenty of water for at least 15 minutes, while holding eyelids apart to ensure flushing of entire surface. Call a physician.

Skin contact: Immediately flush skin with plenty of water for at least 15 minutes, while removing contaminated clothing and shoes. Thoroughly clean clothing and shoes before reuse. Call a physician.

Inhalation: Move person to fresh air. If not breathing, give artificial respiration, preferably by mouth-to-mouth. If breathing is difficult, give oxygen. Call a physician.

Ingestion: If swallowed, DO NOT induce vomiting. Rinse mouth with water. If vomiting occurs spontaneously, keep head below hips to prevent breathing vomit into lungs. NEVER GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON. Call a physician immediately.

NOTICE OF WARRANTY:

Miller Chemical & Fertilizer, LLC warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on such label only when used in accordance with directions under normal use conditions. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Miller. In no case shall Miller Chemical & Fertilizer, LLC be liable for consequential, special or indirect damages resulting from the use or handling of this product. All such risks shall be assumed by the buyer. MILLER CHEMICAL & FERTILIZER, LLC MAKES NO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.

MILLER BORO-ZINC 10-10

DIRECTIONS FOR USE :

Miller Boron-Zinc 10-10 is a foliar fertilizer, completely soluble. It is recommended for foliar application. It is compatible with existing fungicides and insecticides on the market.

Mixture preparation: Add the product to the sprayer or premix tank to exactly half of the filling process. Stir the mixture continually to accelerate solubility.

COMPATIBILITY AND PHYTOTOXICITY: Do not use with nitric compounds, Bordeaux mixture, spray lime, or highly alkaline spray materials. May be incompatible with certain phosphates and phosphite products. Perform a jar test if not previously successful.

METHOD OF APPLICATION: Can be applied by ground or aerial application.

GENERAL USE: Banana, Pineapple, Citrus, Rice, Coffee, Cacao, Vegetables, Almonds, Hazelnuts, Pistachios, Walnuts, Pecans, Grapes, Tree Fruit

IN SEASON CROP USE:

Use 1/2 to 2 pounds per acre as needed every 7 to 10 days. Apply in a suitable water volume for complete coverage.

POST HARVEST, DORMANT:

Use 2 to 10 pounds per acre as needed in a suitable water volume for complete coverage.

CAUTION: This product contains Boron, to which some crops and varieties may be sensitive. If there is any concern, treat a small number of plants or trees before widespread use.
