

CHEMICAL & FERTILIZER, LLC

Safety Data Sheet

Section 1 – Chemical Product and Company Identification

Product Name: Sugar Express 4-10-40 Chemical Name: Inorganic Salts Common Name, Synonym: Inorganic Salts Material Uses: Fertilizer/Mineral Mix Manufacturer/Manufactured For: Miller Chemical and Fertilizer, LLC Phone: (717) 632-8921 FAX: (717) 646-1104 CHEMTREC: (800) 424-9300

Section 2 – Hazard Identification

2.1 Classification of the substance or mixture GHS Classification (29 CFR 1910.1200)

Not a hazardous substance or mixture according to 29 CFR 1910.1200 (OSHA HCS)

2.2 Label elements

GHS Labeling Elements

Pictogram: Not Applicable Signal Word: Not applicable

Hazard Statements: Not applicable Precautionary Statements: Not Applicable

Section 3 – Composition/Information of Ingredients

CAS Number	%
	100
	CAS Number

The above chemicals are not present in sufficient quantities to classify the mixture as hazardous according to GHS bridging principles.

PA Right to Know: This product contains proprietary ingredients

This product contains the following chemicals subject to the reporting requirements of Section 13Title III of the Superfund Amendments and Reauthorization act of 1986 and 40 CFR part 372 (the corresponding CAS numbers and typical percent by weight are also provided). None

Section 4 – First Aid Measures

EYE CONTACT

A HUBER COMPANY

Immediately flush eyes with plenty of water for at least 15 minutes, while holding eyelids apart to ensure flushing of entire surface. Call a physician.

SKIN CONTACT

Immediately flush skin with plenty of water for at least 15 minutes, while removing contaminated clothing and shoes. Thoroughly clean clothing and shoes before reuse. Call a physician.

INHALATION

Remove to fresh air. If not breathing give artificial respiration, preferably mouth to mouth. If breathing is difficult give oxygen. Call a physician.

INGESTION

If swallowed, DO NOT induce vomiting. Rinse mouth with water. Dilute stomach contents by drinking water. If vomiting occurs spontaneously, keep head bellow hips to prevent breathing vomit into lungs. NEVER GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON. Call a physician immediately!

Section 5 – Fire-Fighting Measures

Flash Point (METHOD):	Not Available
Auto-Ignition:	Not Available
Flammable Limits:	Not Available
Extinguishing Media:	Dry chemical, carbon dioxide (CO ₂), water spray or Sand/Earth
Special Fire Fighting Procedures:	None currently known.
Unusual Fire and Explosion Hazards:	Generates CO ₂ , CO and smoke. Combustion products may be
	toxic

Section 6 – Accidental Release Measures

Personal precautions

Evacuate non-essential personnel, eliminate ignition sources, and wear protective equipment (See Section VIII). Shut off source of leak only if safe to do so. Wear respiratory equipment if exposure limits are exceeded.

Contain spill

Shut off leak if safe to do so. Dike area, recover and reclaim material if possible. This material should be prevented from contaminating soil or from entering sewage and drainage systems and bodies of water. Absorb the liquid on material such as sand, vermiculite, or other inert, noncombustible absorbant and place in a clean, dry container suitable for disposal. Containers should be closed and segregated for later disposal. Scrub the area with detergent and water.

Disposal Method

Solids must be disposed of in a permitted waste management facility. Recovered liquids may be reprocessed or incinerated. Incineration must be handled in a permitted facility. Dispose of material in accordance with all Federal, State and Local regulations. Local regulations may be more stringent than Federal or State.

Product Name: Sugar Express 4-10-40

		Section 7 – Handling and Storage
-	•	re equipment when handling. Wash thoroughly after handling. Do not o not breathe vapor, mist, or dust. Avoid prolonged or repeated contact not swallow.
k	For industrial use only. Keep container closed when not in use. Store at temperatures between 41°F and 104°F (5°C and 40°C) and in well-ventilated areas away from heat or flame. Keep out of reach of children.	
	Sect	ion 8 – Exposure Controls/Personal Protection
Engineering Cont Mechanical: (Respiratory Prot	General ventila	ation is usually adequate. If exposure limits are exceeded, or if exposure may occur, use a NIOSHA/MSHA respirator approved for your conditions of exposure. Refer to the most recent NIOSHA publications concerning chemical hazards, or consult your safety equipment supplier. Respiratory protection programs must be in compliance with OSHA requirements ir 29 CFR 1910.134. For emergencies, a NIOSHA/MSHA approved positive pressure-breathing apparatus should be readily available.
Eye Protection:		Chemical goggles or face shield. Always wear eye protection when working with chemicals. Never wear contact lenses when working with chemicals.
Skin Protection:		Rubber gloves. Clean protective body covering, rubber apron, and rubber boots.
Work Hygienic P	ractices:	Avoid contact with skin, eyes, and clothing. After handling this product wash hands before eating, drinking or smoking. If contact occurs, remove contaminated clothing. If needed, take First Aid action shown in Section IV. Launder contaminated clothing before use.
Other Protective		Safety shower, eye wash fountain, and washing facilities should be readily available.
	S	ection 9 – Physical and Chemical Properties
Appearance: Odor: pH (aqueous app		Solid blue crystalline granules Moderate /): 4.0 – 7.0 @ 20°C
